### TOP 10 SCAMS TARGETING SENIORS

Financial scams targeting seniors have become so prevalent they're now considered "the crime of the 21st century." Why? Because seniors are thought to have a significant amount of money sitting in their accounts. But it is not just wealthy seniors who are targeted. Low-income older adults are also at risk. Review NCOA's list of the Top 10 scams targeting seniors-so you can identify one before it is too late: [www.ncoa.org/enhance-economic-security/economic-security-Initiative/top-10-scams-targeting.html](http://www.ncoa.org/enhance-economic-security/economic-security-Initiative/top-10-scams-targeting.html).

## In the Image of God: Access to Mental Health Care

The Diocesan Public Policy Committee is asking us to learn more about mental illness and its treatment, especially as it relates to young people. Regardless of income or health insurance status, families looking for psychiatric care often have a hard time finding it when and where they need it.

For example, Joe is 16 and, until recently, he has been a good student with lots of friends. Now he is withdrawn and has dropped out of all activities. His parents made an appointment with a counselor but they had to wait 4 weeks for it, and the therapist recommended that he see a psychiatrist. There was another 5 week wait for that appointment, and in the meantime Joe attempted suicide and was hospitalized. He was put on an antidepressant, but Joe's parents don't see much improvement in his mood. They are told that they can wait 2 weeks for his next psychiatric appointment or, if they fear another suicide attempt, take him back to the hospital.

"I therefore encourage the efforts of those who strive to ensure that all mentally ill people are given access to necessary forms of care and treatment."

- Pope Benedict XVI
